**2103 3B**  
**Legend Series Trombone**  
Silver, Sterling Silver Bell  
**\$3,149.00**

#### 2103 3B Legend Series Trombone **BEST SELLER**

The legendary 3B has been the choice of studio and jazz players since it was first introduced in the early 1950's. The King 3B is the classic King design that has been the standby for generations of working trombonists. The reason for this undying popularity is simple—it is perhaps the most versatile commercial trombone of all time. Its lyrical sweetness makes the 3B a natural for ballad work, and its exceptional clarity of tone in the high register makes it an outstanding lead horn. Yet the 3B blends well with other voices, so it performs extremely well in section work. .508" bore • 8" bell • Nickel-silver handslide • Includes case and mouthpiece  
483592 998 006 | Lacquer, Yellow Brass Bell | MSRP \$2,965.00 | **\$1,779.00**

The Etude ETB-100 Student Trombone is a beautifully made student instrument that has been well-received by school band and orchestra directors the world over. The ETB-100 displays a great design and reflects Etude's commitment to outstanding construction, resulting in an instrument that will give you years of musical enjoyment and give your student every chance to develop a lifelong association with the love of music.  
H74693 001 | Lacquer | MSRP \$399.99 | **\$149.99**

**42B0 Stradivarius Series**  
**F Attachment Trombone**  
Lacquer, Gold Brass Bell Lightweight Slide  
**\$2,959.00**

#### 42B0 Stradivarius Series F Attachment Trombone **BEST VALUE**

The classic Strad's large, warm sound with less resistance. The 42B0 features an open wrap F attachment section. This design places fewer and larger bends in the tubing which lowers playing resistance. The open wrap also offers a more true sound, so when the player uses the F attachment the sound is the same as when the trigger is not engaged. Stradivarius trombones are famous for their fullness of sound and projection. This is achieved by the use of a one-piece, hand-hammered bell that creates unrestricted vibration. In addition to bell construction, flare, type of alloy, and thickness of the bell material also contribute to the Stad's great sound. .547" bore • 8.5" one-piece hand-hammered bell • Open wrap F attachment with standard rotor • Includes case and mouthpiece  
483626 998 988 | Lacquer, Yellow Brass Bell Standard Slide | MSRP \$4,030.00 | **\$2,829.00**

483626 998 989 | Lacquer, Gold Brass Bell Standard Slide | MSRP \$4,205.00 | **\$2,949.00**

## Schilke

### ST-20 Custom Hagmann Series F Attachment Trombone

**Hagmann valve!** The ST20 Custom Series features a large bore with three interchangeable leadpipes plus an 8.5-inch bell in yellow brass or rose brass. This series also features an open wrap F Attachment design with a Hagmann rotor. The ST20 is available with either a nickel or yellow brass end slide bow, and in a round or square shape main tuning slide to alter the overall response of the instrument to meet the needs of the player. .547" bore • 8.5" bell in yellow or Rose brass • Open wrap F Attachment with Hagmann rotor • Available with round or square tuning slide bow or brass or nickel handslide crook • Includes Schilke Softpack case - mouthpiece NOT included  
463492 | MSRP \$4,429.00 | **\$3,299.00**

**88HO Symphony Series**  
**F Attachment Trombone**  
Lacquer, Yellow Brass Bell  
**\$2,199.00**

#### 88HO Symphony Series F Attachment Trombone

**Top choice of professionals!** Since its introduction by C.G. Conn in 1954, the 88H has remained in continuous production, a record that is unequalled by any other American symphonic trombone. In the 1990's, changes in musical tastes and literature requirements brought about the development of a second-generation 88H, the 88HO Symphonic. This trombone offers an open wrap F attachment for less resistance than the standard 88H. Key of B<sup>♭</sup>/F • .547" bore • 8.5" bell • Open wrap F attachment • Includes case and mouthpiece  
483600 998 006 | Lacquer, Yellow Brass Bell | MSRP \$3,655.00 | **\$2,199.00**

### 1052FD Eterna Series Bass Trombone **BEST SELLER**

World class! The 1052FD Eterna series features a double independent open-wrap rotor system in the keys of B $\flat$  / F / G $\flat$  (D). Because of the design of the valve system, a player can access the second (G $\flat$ ) rotor without playing through the F. This gives the player several ways to simplify slide positions in the low range. 3 interchangeable mouthpipes provide an easy way to tailor the instrument's response, from the large-bore tenor feel of the number one pipe, to the blending characteristics of the second, to the wide open sound of the third pipe. All of these features are amplified by an amazingly efficient dual-gauge bell that is powerful and beautiful sounding in all registers. .562" bore • 9.5" bell • Double independent open wrap rotor system Key of B $\flat$ , F, G $\flat$ , and D • Includes case and mouthpiece  
463746 905 ‡ | Red Brass Bell | MSRP \$4,275.00 | **\$2,989.00**

**\$2,009.00**

### 2166 3B Valve Trombone

3B **Legend model!** The 2166 combines the responsive and unique King valve section with the musical characteristics of the King 3B trombone. The 2166 features a .481-inch bore plus an 8-inch yellow brass bell for excellent tone and response. .481" bore • 8" yellow brass bell • Includes case and mouthpiece  
468330 | MSRP \$2,785.00 | **\$2,009.00**

## Holton

### H279 Farkas Series Screw Bell Double Horn

**Top Holton Horn!** The Holton H279 Farkas Professional French Horn is the same as model H179, but with a detachable bell. Farkas models are regarded among working professionals and leading academics as the flagships of the Holton fleet. The solid nickel silver edition model H279 has especially good center and projection. Key of F / B $\flat$  • .468" bore • 12.25" large throat hand-hammered detachable nickel-silver bell • Tapered rotors and bearings, Solid nickel silver inner and outer slides • Includes case and mouthpiece  
460392 | MSRP \$6,175.00 | **\$4,129.00**

### H179 Farkas Series Fixed Bell Double Horn **BEST SELLER**

460376 | MSRP \$5,515.00 | **\$3,709.00**

### H105 Holton Series Double Horn

**Versatile horn!** The H105 features a nickel silver body plus interchangeable leadpipes that allow the artist to perform comfortably in a wide range of performance situations, from small chamber ensembles to large symphony orchestras. The small-venturi leadpipe has compact feel and an excellent center, making it ideal for chamber orchestra and high-register work. The large-venturi leadpipe has a more free-blowing and open feel with somewhat less resistance, making it an excellent orchestral horn. Key of F / B $\flat$ , Pitch A445 • .468" bore • 12.25" large-throated, hand-hammered, specially annealed and tempered bronze detachable bell • Includes case and mouthpiece
